- › He is also a Fellow and Diplomate ICOI from 1995.  
*Founder President of The Academy of Oral Implantology in India*
- › He has invented US- FDA Registered/CE marked Instrumentation and Methodology for Dentin Sensitivity analysis (US Patent Granted)
- › He has written a Copyrighted Software for Visual Analogue Scale for use in Dental and Medical field.
- › Author of Textbook - '*Oral Implantology*'.

### Dr. Rakshith Hegde

- › MDS –Prosthodontics.
- › Currently Professor at A.B.Shetty Memorial Institute of Dental Sciences, Mangalore.
- › Working as PG research guide since 2007.
- › Faculty for CADSS-Goethe Frankfurt University implant course
- › Diploma – Weld-One concept an alternative prosthetic protocol
- › Accredited by DGOI, Germany and Dentsply Implants to conduct implant courses in India.
- › Numerous national and international publications.
- › Numerous research projects guided.
- › Members of numerous International Implant groups.

## WHY THIS COURSE?

- › Unique : One of its kind in INDIA.
- › 4 Internationally renowned speakers in the field of Implantology.
- › The only unbiased science based Implant program.
- › Hands-on on 7 Implant systems.
- › Choose any of the 7 implant systems for patient surgeries.  
(Noble Active, Noble Replace, Dentsply Xive, Dentsply Ankylos, Osstem, Biodenta, Myriad)
- › Each participant will place 10 Implants in patients.
- › Restore all your cases from A-Z with Metal free Cad-Cam prosthesis (BruxZir) at no additional cost.
- › Continued Mentoring.
- › Live advanced surgeries like Sinus lifts, GBR, Immediate placement and loading, Intra oral welding and many more...

**OUR MISSION IS THAT EVERY PARTICIPANT SHOULD BE ABLE TO START PLACING AND RESTORING IMPLANTS IN ALL CLINICAL SITUATIONS AFTER THE COURSE.**

## COURSE HIGHLIGHTS.

- › Comprehensive didactics covering all aspects of oral implantology.
- › 2 courses –Alpha and Sigma  
Alpha course-2 implant surgeries with Metal Free CAD/CAM restorations in patients.  
Sigma course-10 implant surgeries with Metal Free CAD/CAM restorations in patients.  
(both courses include case selection,treatmentplanning,provisionalization and impression procedures)
- › Widened your horizon: 5 major implant companies /7 implant systems to choose from.
- › Holistic approach & clinical exposure to incorporate implantology in daily practice.
- › Implant practice promotion and marketing.
- › Emphasis on infection control & sterilisation procedures.
- › Training & Guidance for case documentation & application for various fellowship programs.
- › Special sessions on patient motivation technique.
- › Onsite assistance by mentors & participating companies.
- › Special deals & discounts on Implant materials & equipments.

# MODULES

## MODULE 1 (4 days) :

### 1. DIDACTICS

#### A. Basic implantology

- › Introduction
- › Quantitative bone loss
- › Bone density
- › Medical history and investigations
- › Indications and contra-indications
- › Consequences of edentulism
- › Objective of implantology

#### B. Anatomical consideration

- › Quality of bone
- › Anatomical landmarks
- › Nerve and blood supply
- › Bone- classification in implantology

#### C. Bone and osseo-integration

- › What is bone?
- › Bone healing
- › Factors affecting osseo-integration
- › Implant loading- strain and micro-strain

#### D. Implant designs

- › Implant types
- › Implant manufacturing
- › Significance of implant design
- › Implant surfaces

#### F. The implant surgery

- › Asepsis and sterilization
- › Surgical systems
- › Surgical armamentarium
- › Surgical protocols

#### G. Anesthesia

#### H. Incision, Flap design and Suturing

#### I. Surgical bone manipulation

#### J. Trouble shooting

### 2. DEMONSTRATION & HANDS-ON

- › CBCT evaluation
- › Suturing
- › Implant placement on CAD-CAM models

### 3. LIVE SURGERY by mentor and participants

#### ALPHA COURSE

Surgical placement of 2 implants.

#### SIGMA COURSE

Surgical placement of 10 implants.

## MODULE 2 (4 Days) :

### 1. DIDACTICS

- A. The second stage surgery
- B. Tissue modeling
- C. Implant prosthetics
- D. Impression making in implantology
  - Impression-materials
  - Soft tissue mask and model making
  - Impression technique
  - Bite registration
- E. Prosthetic options in implantology
- F. Prosthetic components
- G. Abutment selection
- H. Abutment cementation
- I. Cement retained V/S Screw retained
- J. Biologic width
- K. Implant overdentures
- L. Implant occlusion
- M. Progressive loading
- N. Esthetics:peri-implant soft tissue in the esthetic zone

### 2. DEMONSTRATION & HANDS-ON

- Stage 2 surgery
- Impression procedures : Open Tray & Closed Tray

### 3. LIVE SURGERY

- Stage 2 surgery
- Impression procedures
- Prosthesis delivery(CAD/CAM Bruxzir crowns)

### 4. Value Add Ons:

- A. Management of complications ; Troubleshooting
- B. Bone grafting & materials
- C. Maintenance of implants
- D. Introduction to advance surgical procedures
  - Sinus augmentation
  - Intraoral welding
  - Immediate placement & loading protocols
  - Soft tissue manipulation
  - All on 4 and All on 6 concepts

# REGISTRATION

Date: 1<sup>st</sup> module from 7<sup>TH</sup> - 10<sup>TH</sup> December 2017

Introductory Course fee:

1. Alpha course - INR 90,000/- (Incl. of all taxes)  
(includes the cost of 2 Implants and 2 BruxZir crowns)
2. Sigma course - INR 2,80,000/- (Incl. of all taxes)  
(includes the cost of 10 Implants and 10 BruxZir crowns)

FINANCE OPTIONS AVAILABLE.

Venue: *Inspire Dental, 1st Floor, "B" Wing, Damodar Kripa, Above Aashray Hotel, Liberty garden, Malad (West), Mumbai 400064*

## FAQ :

### 1.WHO IS ELIGIBLE FOR THE COURSE?

*Dentists, either generalists or specialists who are keen on offering implants as a prosthetic option to their patients, can opt for this program.*

### 2.HOW SHOULD I PAY MY COURSE FEES?

*Book your participation well in advance by paying Rs 35000=00. The balance amount can be paid when you arrive for first module. You can also transfer the funds through NEFT.*

### 3.CAN WE BRING OUR OWN PATIENTS FOR PLACING IMPLANTS IN THE COURSE?

*Yes, you can arrange for your own patients for placing implants. We will guide you from diagnosis till restoration.*

### 4.CAN WE GET THE ACCOMODATION ARRANGED?

*We will be happy to assist you to arrange for accommodation near our centre.*

### 5.WHICH IMPLANT SYSTEM IS TAUGHT TO US?

*This is a purely science based program. The course will not focus on any implant system. By attending the course, our aim is to make you to understand about all the implant systems and the principles on how they work. It is for you to decide which implant system you want to practice after doing hands-on on all the systems included in the course.*

### 6.WHAT ARE THE COURSE MATERIALS AVAILABLE TO US?

*Course folder containing writing pad, templates for implant selection, drill sequencing, instrumentation list, patient consent form, CD containing PowerPoint presentations, case videos, E books, Patient education materials, Implant Catalogues.*

### 7.WHAT IS ALPHA COURSE?

Alpha course is a program covering complete didactics for surgical and prosthetic modules for basic implantology following which course participant will place and restore 2 implants in patients.

### 8.WHAT IS SIGMA COURSE?

Sigma course is an extensive surgical and prosthetic competence program covering complete didactics for surgical and prosthetic modules for basic implantology following which course participant will place and restore **10 implants** in patients.

Upon completion, this program will give the necessary **experience and confidence to start a successful implant practice** along with necessary documentation for eligibility to various fellowships.

### 9.IF I REGISTER FOR ALPHA COURSE , WILL I BE ABLE TO REGISTER FOR SIGMA COURSE LATER?

All participants of alpha course are eligible to register for sigma course, subject to availability of patients and number of participants.
