## Day I

### DIAGNOSIS, ACCESS, SHAPING & OBTURATION

- a.) Diagnosis - what questions to ask to come to the right diagnosis and then plan endodontic treatment.
- b.) Successful use of anaesthetic technique to achieve painless therapy.
- c.) Right tools for access opening and to achieve straight line access,
- d.) Early coronal enlargement with economical and advanced instruments.
- e.) Working length determination using Apex Locator (Demonstration of correct usage)
- f.) Getting No. 15 K file loose till working length using various hand filing techniques.
- g.) Introduction to all major rotary systems - it's the clinician's hand that negotiates the canal, rotaries just enlarge them.
- h.) Irrigation protocol to achieve 3-D fills using economical and advanced techniques.
- i.) Which sealer to select and why (Scientific evidence)
- j.) Warm gutta percha technique demonstration and hands-on.
- k.) Retreatment - Refer or to be done.
- l.) Scientific rationale of using analgesics.

**“ SINGLE VISIT ROOT CANAL TREATMENT ON LIVE PATIENT ”**

Day 2

## REDEFINING DISINFECTION IN ENDODONTICS

First of it's kind course focused on irrigation in endodontics.

**“INSTRUMENTS SHAPE IRRIGANTS CLEAN”**

### A: HOW TO?

- Choose ideal irrigating solution
- Efficiently & Safely irrigate the root canal system
- Use manual dynamic agitation
- Use sonic for agitation
- Use passive ultrasonic for agitation
- Use negative pressure irrigation
- What is the ideal irrigation protocol?

### B: INTRACANAL MEDICAMENTS

- Indications
- Types (calcium hydroxide)
- Techniques
- Triple antibiotic pastes

IRRIGATION IS KEY IN ENDODONTICS...  
FILES SHAPE AND IRRIGANTS CLEAN

**“REPAIR IT” Applications of MTA: WHY, WHEN, HOW.**

### HANDS ON EXPERIENCE ON.

- Sonic agitation on prepared canal (Pro-Agitator)
- Ultrasonics agitation on prepared canal (Irrisafe)
- Pressure assisted irrigation (ENDO-IRRIGATOR PLUS)
- Use “one step irrigating solution (CHLOR O QUICK)

# WHY DO THIS COURSE?

Most courses focus on product promotion. Our focus is to get basics right. Getting I5no K file loose at the apex is the primary requisite before introduction of any rotary file system in the world. Learn the art of negotiation to treat most complex anatomies. Rotary shaping with advanced rotary files and irrigation with Endo irrigator plus and other irrigation devices will be a major highlight of this course.

## PROGRAM DETAILS

Date: 23rd-24th June, 2018 | Time: 9 am to 5 pm

Venue: Inspire Dental, 2nd Floor, "B" Wing, Damodar Kripa,  
Above Aashray Hotel, Liberty Garden, Malad (West), Mumbai - 400064

### Registration Details

☎ To Register Call : 09004246359

**Course fees - INR Rs. 14,000/- (Incl. of GST)**

(Includes breakfast, am/pm, Tea/Coffee & Lunch)

Please send payment by cash/cheque in favour of "Inspire Dental LLP" to  
Dental Solutions, Shop no.4, Ashish, Hingwala Lane, Extension,  
Opposite Popular Hotel, Ghatkopar (East), Mumbai - 400077
